Gross tonnage	138,000
Length	1,020 ft
Cruising Speed	22 knots
Total Deck	15
Guest capacity	3,840
Staterooms	1,557

Voyager of the Seas is the namesake of Voyager-class ships of Royal Caribbean. In 1999, when Royal Caribbean's 3,114-passenger Voyager of the Seas entered service as the largest cruise ship in the world, it was heralded as the most revolutionary vessel ever built, forever changing the world of cruising with such never-before-seen features as an ice skating rink/TV studio/concert arena, rock-climbing wall, in-line skating track, horizontal atrium (now known as the Royal Promenade), and inside cabins with a view. The rock-climbing walls are now aboard every Royal Caribbean ship, and the ice skating rink and other features can also be enjoyed on the line's other four Voyager-class ships, as well as on the line's newer classes of ships, but Voyager of the Seas is still mind boggling, memorable and exciting. The ship underwent an \$80-million refit in October 2014, adding several other signature facilities, such as a FlowRider surfing simulator, "virtual balconies" on inside cabins, 3D movies and several new dining options.

Itinerary			
Day	Port	Arrive	Depart
1	Singapore		5.00 PM
2	Port Klang, Malaysia	8.00 AM	5.00 PM
3	At Sea		
4	Singapore	8.00 AM
